### Social Care Recruitment

When you have a position to fill, you need to find the right person quickly. That's why you need a recruitment company that is:

- Responsive
- Pro-active
- Accurate

At Seven Social Care we don't believe in the scattergun approach, sending you a pile of applicants in the hope that you'll find the right person for you.

When you come to us, our consultants will quickly find you the best talent that's available at that time. Every candidate we put forward is handpicked and potentially, the person you're looking for.

To find out more, or to find your perfect candidate, call us today on 0333 200 5424.

### Recruitment That Works For You

How do we consistently find the right candidates for you?

The answer is simple, by getting to know you.

Your consultant works tirelessly to make sure they get to know everything about you and your company so they can respond quickly to your requests.

Why is it so important they get to know you?

It's the only way they can understand what it is you're looking for. Once they are familiar with your company's ethos they can make sure every candidate they put forward will fit perfectly within your company's environment.

### You Are Our Top Priority

Using our extensive social care recruitment knowledge, we'll make sure we find the perfect candidate wherever they are.

Rather than being a faceless recruitment consultant you call in now and then, we become part of your team, working as an extension to your HR department.

The relationship we build with you guarantees hassle free recruitment taking the weight from your shoulders.

We mentioned earlier that we only put forward candidates that we believe are a perfect fit. That means you're not faced with sifting through a pile of applications.

We take all the guesswork out of your search because every candidate we put forward has the potential to be the person you're looking for.

**So if you want a recruitment process that is targeted, simple and effective, call us today on 0333 200 5424 and let us find you the perfect candidate.**
