kitchens + bedrooms

Today's kitchens are so much more than just somewhere to prepare food.

Your kitchen is the social hub of your home. It is a place for friends and family to get together, eat and talk.

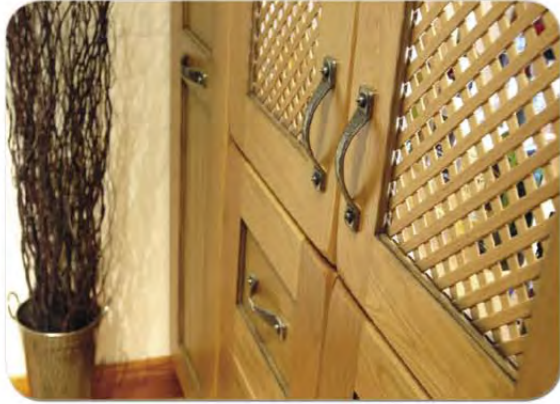

As the centre piece of your home, you want something that is stylish yet functional, a room that reflects your personality whilst being practical to fulfil your needs.

All our kitchens are individually designed. There are no set ranges or lines to choose from. Instead you come to us with your ideas and our experienced designers will work with you to create a bespoke kitchen that reflects your tastes, goals and lifestyle...

# Creating the social hub of your home

Design is all about creating a space that performs superbly and looks sensational.

Built to your exact design and specification requirements, every last detail is taken care of from the work surfaces, handles, sinks, taps, flooring, tiling, right down to the specific colour of your cabinets.

As main agents for Neff and Miele we can also supply you with the latest appliances to compliment your tailor-made kitchen.

Our complete kitchen design service takes you from your initial ideas to the fully installed end product.

# Bespoke styling and functionality

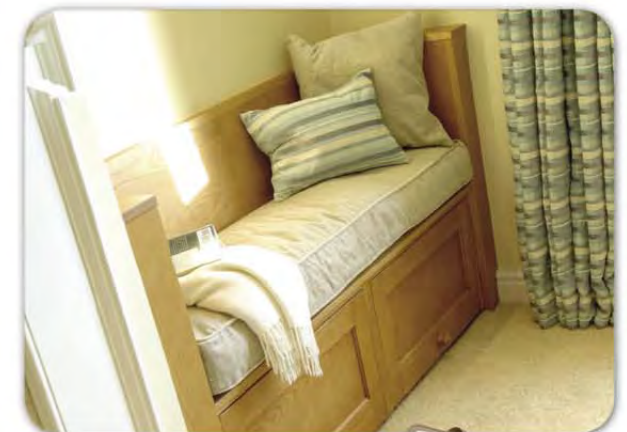

Bedrooms are probably the most personal room in the house for all family members. They should be calming, a room for peaceful relaxation.

But often there just never seems quite enough storage space which can lead to clutter and dissatisfaction with the look and feel of the room.

# Create your own personal space

Our experienced designers will work with you to transform your ideas into a stunning and practical reality.

Our tailor-made fitted bedroom furniture gives you complete control. We will help you create the look you want with the space you need...

Bedrooms come in all shapes and sizes but don't let that be a barrier to achieving the look and feel that you desire.

Our designers will help you make the best use of every available inch by creating bespoke and inspired storage solutions to enhance your bedroom in any style, finish or colour.

Our tailor-made service will ensure you achieve a truly individual look that reflects your personality.

# Inspired storage solutions

More and more people are working and studying from home. Therefore you want the best of both worlds – the professional and business-like feel of an office but without losing the look or comfort of your home.

Whether you have a dedicated room or need to incorporate an area into your living space, we offer bespoke designs that will blend seamlessly with your existing furniture.

You decide on the style, colour, and size of office area that you require and our designers and craftsmen will turn your dream into a reality. It will be as individual as you whilst providing a practical range of filing and storage solutions.

# A place to work, rest and play

After a hard day working its time to relax and enjoy a film or listen to some music. Now it is simple to fit today's modern technology into your home without it looking cumbersome or out of place.

Our designers will work with you to create a home entertainment area, for any room, that blends perfectly with your interior decoration.

Your bathroom should be a place of relaxation. Somewhere soothing to unwind and wash away the stresses of daily life.

But as the bathroom is also probably the most used room in your home you need to incorporate functionality with style.

# Relaxation. Style. Individuality.

No matter what shape or size, our designers will work with you to get the most of your bathroom. We can help you create space with our built in or stand alone cabinets, made to your exact specification and colour which will perfectly compliment your choice of bathroom suite.

Whether you are looking to revitalise your family bathroom, en-suite or create a modern wet-room, our designers will help you achieve the look and feel you want.

With over 40 years of experience, Anglia Kitchens and Bedrooms is the leading manufacturer in East Anglia for fitted kitchens, bedrooms, bathrooms, and home offices.

Our exacting standards of design, manufacture, installation and customer service, combined with flexibility and affordability ensure we exceed our customer's expectations time after time.

All our cabinets are manufactured in our on-site workshop. We are happy to show you round this area so you can see for yourself the quality of the workmanship.

# Handcrafted bespoke interiors

We provide an all-encompassing range of products and services including an extensive range of quality appliances, clever accessories, and quality materials, flooring, and wall finishes.

Installations are carried out seamlessly, professionally and painlessly by our expert staff creating your perfect bespoke interior every time.
