

## AVES BRANDS IP SERVICES

### A more connected service

It's about time IP management was done differently.

For you to get the best experience, it's essential that the right people with the right knowledge carry out your work.

Not only that, it requires a well-defined ecosystem that enables a seamless service where legal and non-legal processes can merge together effortlessly.

And finally, a transparent pricing structure optimised for the work being done.

The answer?

Aves Brands.

### The power of three

# 3

- The right people
- The right skills
- The right tasks

Together with Bird & Bird, we are offering you a different way to manage your IP.

By using the power of three, we've created a cost-effective IP solution that combines intelligent delivery with multi-layered expertise that's focused on boosting your efficiency.

[Contact us](#) today and supercharge your business with the power of three.

## IP SUPPORT SERVICES

Save 30-50% on your IP Support Services costs

There are times when you're going to need support in specific areas of your IP work.

Rather than having to buy a whole package, Aves Brands has developed a flexible service approach where you only pay for what you need.

Our broad range of transactional services allows you to offload your administrative burden and reduce the associated risk whilst optimising your costs.

**Contact us** today and find out how we can help you save on your IP support services.

## A BRIEF LOOK AT OUR IP SUPPORT SERVICES

RENEWALS	RECORDALS	FILING SUPPORT	PARALEGAL & DOCKETING	DATA VERIFICATION	SEARCHES & WATCHES

Peaks and troughs in workflows, unexpected staff changes and new business requirements can lead to unpredictable resource demands.

We can provide support aligned to your changing needs, either one-off or on a more permanent basis, to allow your business to better cope with these unexpected challenges.

Our teams are flexible and we can offer you the choice of managing the work within your database or ours, depending upon whether you have your own systems and workflows or would prefer to use ours.

**Get in touch** and find out how our teams could work together.
